

① Letter is filled out all over, with lines and patterns filling in odd white spots. ② Disjointed illustrations separated by too much space. Fix this by adding patterns.

To all the co-creators of this letter, here's how I envisioned it:

**INSTRUCTIONS** *Letter Captain*: write down a simple rule for participants to follow as they design the letterform. Example: "Use only curvy lines. The curves may never cross."  
*Letter Participants*: follow the established rule to design a portion of the letterform using the provided Sharpies. After you complete a small portion, sign the page and then pass the letter to the next person to work on. The 9th recipient should complete the letter. Turn the finished letter in for scanning and sharing.
